

Restricted Hazardous Substances — Polyethylene Foam & Cardboard Packaging Materials

SCOPE

This declaration covers the polyethylene foam and cardboard packaging materials manufactured and supplied by Edline Advanced Packaging Solutions ("Edline") listed in Section 3. Directive 2011/65/EU on the restriction of hazardous substances ("RoHS") governs electrical and electronic equipment rather than packaging materials as such; this declaration is issued as a voluntary supply-chain assurance, at customers' request, confirming that Edline's materials are consistent with RoHS's restricted-substance limits.

DECLARATION

Edline confirms that the materials listed in Section 3 do not contain the substances below as intentionally added constituents, and are not expected to contain them under normal production conditions above the concentration limits set out in Annex II of Directive (EU) 2015/863 ("RoHS 3"):

Restricted Substance	Maximum Concentration Value
Lead (Pb)	0.1% by weight (1000 ppm)
Mercury (Hg)	0.1% by weight (1000 ppm)
Cadmium (Cd)	0.01% by weight (100 ppm)
Hexavalent Chromium (Cr ⁶⁺)	0.1% by weight (1000 ppm)
Polybrominated Biphenyls (PBB)	0.1% by weight (1000 ppm)
Polybrominated Diphenyl Ethers (PBDE)	0.1% by weight (1000 ppm)
Bis(2-Ethylhexyl) phthalate (DEHP)	0.1% by weight (1000 ppm)
Benzyl butyl phthalate (BBP)	0.1% by weight (1000 ppm)
Dibutyl phthalate (DBP)	0.1% by weight (1000 ppm)
Diisobutyl phthalate (DIBP)	0.1% by weight (1000 ppm)

These substances are not used or formed, to Edline's knowledge, in the production process. As their presence is not expected under normal conditions, Edline does not conduct laboratory testing to confirm their absence.

MATERIALS COVERED

- Closed-cell polyethylene (PE-LD) foam, CFC and HCFC free — white
- Closed-cell polyethylene (PE-LD) foam, CFC and HCFC free — pink, anti-static
- Corrugated cardboard (carton)

GENERAL STATEMENT & VALIDITY

Note: This declaration reflects Edline's current knowledge of its materials and production process, is provided in good faith, and does not constitute a laboratory test report. It remains valid until superseded or until the underlying materials or production process change. For product-specific test data or a formal Certificate of Conformity, please contact Edline.
